Cufar Aleksander, EFIAP/d3, MPSA, Slovenia

I was born on 3 May 1962 in Kranj. After finishing elementary school, I enrolled in the programme for laboratory technicians at the Secondary School of Nursing in Ljubljana. I then continued my education at the Higher Professional Education Study Programme, Radiologic Technology. In 1990 I began actively participating in photography exhibitions all over the world. So far I have won over 700 awards. I was awarded the Photographic Federation of Slovenia's Master of Photography title in 2009 and the Master PSA title in 2015. FIAP awarded me the Excellence FIAP Diamond 1 title in 2016.

During all these years, my love for photography has not waned. On the contrary, it is only now that I realize how many wonders I have yet to catch with my camera. Recently, my favourite themes have been the forest, swans, landscape, black-and-white photography, and experimental photography. I am searching for themes that are rich in colour, wonderfully illuminated, and represent something exceptional in nature. When I find that special theme, I isolate it and then wait for the hour of the day or the season of the year which allows me to show what I see in my own unique way. In the digital darkroom I often combine photographs or change them into something different, better. When it comes to photography, the possibilities are endless. I can keep coming back to the same theme, finding it to be different every single time. This diversity, continuous changing of the lighting, gives me immense pleasure and the opportunity to search for something yet unseen.

Vucicevic Vuckovic Branka, EFIAP, Serbia

Branka Vucicevic Vuckovic, an art historian and Serbian photographer, was born in 1963 in Cacak. Graduated from the Faculty of Philosophy in Belgrade - Department of Art History. FIAP BLUE BADGE

van Son Max, EFIAP/d2, MPSA
Netherlands

With his architectural background, Max van Son is obviously very interested in contemporary architecture, abstraction, design, environmental and urban photography. His first attempts in digital photography date back to 2010 and since then it has become his playground, his way of seeing the world around him. Max's work is characterized by the portrayal of people in architecture, the context, typology, society and environment around architecture. As a result of his frequent stay in urban environments, Max gradually became more and more fascinated by the daily scenes on the street. In addition he finds his inspiration in capturing animals in relation to their natural habitat. For Max, it's a kind of counterpart to architectural and urban photography. His interests in place, form, structure and texture largely influences his style of photography. Max pays close attention to composition, lighting and colour. Inspired by minimalism, he tries to simplify. Simplicity is the ultimate sophistication. He uses his intuition, interests, curiosity and connection to the subject or scenery to bring out its hidden qualities and values. It's a challenge to turn something ordinary into something exceptional. Max likes to make photographs which leave something to the imagination. A large number of photographs have been awarded in international photographic exhibitions and international salons of photography; IPA-International Photography Awards, Sony World Photography Awards, Siena International Photo Awards, Trierenberg Super Circuit, ISF World Cup, German DVF-Photocup, Photographic Festival of La Gacilly and many other exhibitions. His images are regularly published in books and magazines.
