FIAP BLUE BADGE

Nadudvari Zsolt
Hungary

My fascination with photography started when I was a child. I first fell in love with it in my school photography class.

I used to dilate my black-and-white pictures in the bathroom at home, which was more or less successful, but I enjoyed it.

Later, as an adult, I became a family chronicler, recording family events, trips, and journeys. It all changed in 2015 when I bought a new camera, and with it came a free 4-hour photography course. It was here that I first felt that this was my path.

That's when I got fascinated with the art of photography.

I took different courses and schools. I enrolled in all the places where I could learn something new about photography. I had excellent teachers who taught me well, and I met artists who advise me the way even today.

My main interest is in nature photography. I also like to photograph wildlife, birds, and landscapes.

When I travel abroad, I often photograph buildings as well as landscapes.

Encouraged by my family and my teachers/mentors, I applied for national and international competitions in 2022 to have my pictures judged by a professional jury.
